Access Open

Details

Professional papers relating to Laby's education as a student in the Natural Philosophy Department at the University of Melbourne, and as a lecturer at the RAAF Academy Point Cook including teaching materials relating to practical laboratory work and several volumes of student work reporting on their practical work ((late 1960s) and other curriculum material from the RAAF Academy. The collection includes notebooks containing scientific data, photographs, publications, technical reports and brochures, computer data print outs, subject files M1-M30, correspondence about collaboration with University of Wyoming and Climate Impact Assessment Program, and contracts with the Office of Naval Research. Among the records are notebooks relating to atmospheric research including balloon experiments in regional Australia (Coffs Harbour), and study/research visits to the US and South Africa.
