Details

This collection contains scripts of 'London and American Letters', a series of regular reports broadcast from London and America on the ABC's 'Women's Session'. The 'Letters from America', reporting on social, political and wartime life in the United States were compiled by Jean Wilmot Bemis. The reports compiled by Jean Wilmot Bemis date from July 1943 through to December 1945, and then from January 1948 through to December 1951. The 'Letters from London' follow a similar format to those forwarded from the United States. The earlier reports give a detailed coverage of the effects of war on English life, while the later letters give more coverage to social, cultural and political events. Maie Stevens compiled the London letters from January 1940 through until December 1945. She resumed this duty again in January 1948 and forwarded regular reports until March 1951. The role of London correspondent was taken up by Phyllis Duncan Brown in May 1951 and she continued to forward regular reports to the Women's Session until September 1951. It is assumed that the 'Letters from London' series was concluded at this point.
